

Measuring with Six Links

Your chain has six links. Use it to measure objects in the room. Is each object more than, less than, or about the same as six links? Complete the table.

Object	Circle One
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
