

# Measuring with Ten Links

Compare the length of each object with ten links. Is the object's length more than, less than, or about the same as ten links? Circle your answer.

Object	Circle One
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
	More than Less than About the same
