Homework

Dear Family Member:

In class, we have been learning about addition. Your child has been using connecting cubes and part-whole diagrams to solve problems such as $2 + \square = 5$. Students can think, "Two and how many more make five?" To help your child solve the problems on this page, give him or her about 10 counters to work with, such as 10 buttons, pennies, beans, blocks, or whatever you have available.

Thank you.
