

Add On Pennies

Homework

Dear Family Member:

In class, your child uses a counting-on strategy to solve problems. For example, to add $11 + 3$, start by saying “11” and then count on, “12, 13, 14.” Encourage your child to use counting on to solve the problems below.

Thank you.

How much money will each student have after receiving more pennies? Write a number sentence for each problem.

1.

_____ + _____ = _____

2.

_____ + _____ = _____

3.

_____ + _____ = _____

4.

_____ + _____ = _____

5.

_____ + _____ = _____

6.

_____ + _____ = _____

7.

_____ + _____ = _____

8.

_____ + _____ = _____

9.

_____ + _____ = _____

10.

_____ + _____ = _____
