

Fair Shares

1. Draw the number of people listed in the first column. Draw the number of plates you need to share the cookies in the second column. Use counters to decide how you would share your cookies fairly. Show on the plates how many cookies each person gets. If there are any leftovers, draw them in the third column.

_____ People  15 Cookies 

People	Number of Cookies on Each Plate	Leftovers

_____ groups of _____ and _____ left over.
