

At the Zoo

Solve and write a number sentence for each problem. You may use cubes, a number line, or ten frames. You may also draw a picture or diagram.

1. Linda's mother bought an adult ticket for \$10 and a child's ticket for \$7. How much more did the adult ticket cost?

2. There are a total of 6 monkeys in a cage. Four of the monkeys are eating on the floor. The rest are in a tree. How many are in the tree?

3. Lin had 3 pieces of candy. She kept all of them in her pocket. How many did she give away?
