

2. The zoo store had 9 toy tigers. They sold 7. How many are left?

3. The store had 5 toy zoo trains. They sold some to a man. Then the store had 2 zoo trains. How many did the man buy?

4. In the morning, the owner put some animal books in the window. He sold three that day. Then he had 7 left. How many were in the window that morning?

5. Complete the number sentence $10 - 8 = \square$. Then draw a picture and write a subtraction story about a zoo store to match the sentence.
