𝓑 Pet Shop

$\boxed{\begin{smallmatrix}7\\+5\end{smallmatrix}}$ **N**

Show or tell how to use ten frames, number lines, or connecting cubes to solve each problem.

1. Marge cleaned the cages at the pet shop. By mistake she left some cages open. Six kittens and four birds got out. How many animals did Marge have to catch? Write a number sentence.

2. Bobby had three fish in his aquarium. He went to the pet shop and bought seven more fish. How many fish now live in Bobby's aquarium? Write a number sentence.
