

I Need More Links

1. Sara's 40-link chain was not long enough to measure a shelf. She added 3 more links to her chain to reach the end of the shelf. How long is the shelf?
2. Michael and Liz measured the length of a bulletin board. They skip counted by fives to 25. Then they counted 4 more links. How long is the bulletin board?
3. Show how to use a number line to solve Questions 1 and 2.

Find an Object: Links

1. Find an object that is about 4 links long.
2. Find an object that is about 14 links long.
3. Find an object that is about 24 links long.
