

## **K** Patterns with Links

Your teacher will pull a link chain out of a bag one link at a time. Identify the pattern. Predict what color comes next.

---

## **L** Links

1. To measure a table, Jasmine connected 17 links. Helen attached 8 more links to reach the end of the table. How many links long is the table?
  
2. Carli's teacher asked the class to make a 12-link chain. How many links does Carli need to add to her 5-link chain so that it has 12 links?
  
3. Show or tell how you solved Question 2.
