

 **Check-In: Questions 1-4**

1. Which kind of bean did the cup hold more of?

About how many more? Use your graph to help you.

2. Which kind of bean was bigger in size?

3. Will the cup always hold more small beans than big beans?
Explain your answer.

Work with your partner to answer this question. Then share with the class how you found your answer.

4. If a big cup holds 100 of the small beans, about how many large beans would that big cup hold?
