

# Could Be or Crazy

Dear Family Member:

The class has been learning about the numbers up to 100. The students have been deciding whether estimates and measurements with these numbers are reasonable or not. They have also been learning that the measure of a length depends on the size of the unit of measure. For example, a pencil could be 4 large paper clips long or 6 small paper clips long. Use the picture of five links to help you.

Thank you.

1. Name something in your home for which 20 links long is a crazy estimate.
  
2. Name something in your home for which 20 links long is a could be estimate.
