

# Marble Problems

Dear Family Member:

We have been working on solving a variety of addition and subtraction word problems using multiples of ten. Your child can use pictures, objects, a number line, ten frames, or 100 Chart to find the solution. You can help your child by asking if the answer is reasonable and what strategies he or she used.

Thank you.

## Solve each problem and write a number sentence.

1. Tony had some marbles. He bought 30 marbles. Now he has 60 marbles. How many did he have at the beginning?
  
2. Maria had 10 marbles. Tony gave her some marbles. Now she has 90 marbles. How many did Tony give her?
  
3. On Tuesday Maria had 70 marbles. She gave some to her friend. Now she has 10 marbles. How many did she give to her friend?
