## **Use Strategies to Solve Problems**

Show or tell how you solve each problem.

1. Grace and Jerome went to the library. Grace took out 9 books and Jerome took out 7 books. How many books did they take out altogether?

2. Grace's mom had some grapes. She gave 6 to Grace. She has 7 left. How many grapes did she start with?

3. One day Grace and Jerome went to a garage sale. Grace bought 14 baseball cards but she gave some to Jerome. Now she has 8 baseball cards. How many did she give to Jerome?
