

C Ten Frame Flash

I will show you two ten frames and flash the display on and off. Tell the number shown and how you know.

D Partition Ten

Stand up and find a partner.

1. Face your partner.
2. Player 1 puts both arms straight up in the air.
3. Once in the air, Player 1 uses his or her fingers to show a number between 0 and 10.
4. Player 2 puts his or her arms down and displays the number needed to make ten. For example, Player 1 shows 4 fingers and Player 2 shows 6 fingers because $4 + 6 = 10$.
5. On the next turn, Player 2 leads.
