

# Grace and Jerome Problems

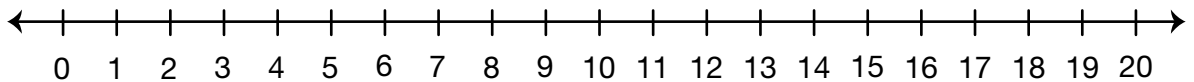

Dear Family Member:

We have been working on different types of word problems. Your child may use ten frames, counters, the number line, drawings, or mental math to solve the problems. He or she should write a number sentence for each problem.

Thank you.

- Grace has 12 pencils. Jerome has 5 pencils. How many more pencils does Grace have?

Number Sentence: \_\_\_\_\_

- Grace has 5 nickels. Jerome has 7 more nickels than Grace. How many nickels does Jerome have?

Number Sentence: \_\_\_\_\_

3. Grace has 12 books. Eight are hardcover books. The rest of the books are paperbacks. How many paperbacks does she have?

Number Sentence: \_\_\_\_\_

4. Jerome had \$8. He got more money for helping his aunt. Now he has \$11. How much did he get for helping his aunt?

Number Sentence: \_\_\_\_\_

5. Grace had some money. She spent \$8 and now she has \$7 left. How much money did she start with?

Number Sentence: \_\_\_\_\_
