

Grace and Jerome Problems

Dear Family Member:

We have been working on different types of word problems. Your child may use ten frames, counters, the number line, drawings, or mental math to solve the problems. He or she should write a number sentence for each problem.

Thank you.

- Grace has 12 pencils. Jerome has 5 pencils. How many more pencils does Grace have?

Number Sentence: _____

- Grace has 5 nickels. Jerome has 7 more nickels than Grace. How many nickels does Jerome have?

Number Sentence: _____
