## More Grace and Jerome Problems

Dear Family Member:

Grace and Jerome like to collect things. Help your child solve each problem about their collections. Your child should write a number sentence for each. He or she may use counters (pennies or beans), the number line, or ten frames. A picture or diagram may also help. Thank you.

- Grace and Jerome have 9 bugs in their insect collection. If they find 3 more, how many will they have?

Number Sentence: \_\_\_\_\_
