

# Guess the Output

Dear Family Member:

In class, your child played a game called *Guess My Rule*. In this game, students are told the rule and the input. Help your child figure out the output. Your child may use coins or other counters and the *100 Chart* in the *Student Activity Book Reference* section.

Thank you.

**A.**

Rule: Subtract 1	
Input	Output
30	
20	
10	
25
