

# Golden Eggs

## Royal Rabbits

The king and the children went to the royal rabbit pen. The king said, “I asked the royal carpenter to build 4 rabbit pens. I have 20 rabbits. If each pen holds the same number of rabbits, how many will go in each pen? If you can solve this problem for me, I will reward you with a bird that lays golden eggs.”

1. How many rabbits will go in each pen? Show your work here.
