

# Make-Ten Rule Machines

1. Ana bought a notepad for 8¢ and an eraser for 4¢ at the school store. How much did Ana spend? Help Ana complete her strategy below.

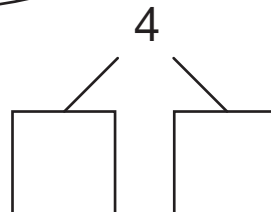

Add 8¢  
and 4¢

$8 + 4$

What number do  
I put with 8 to  
make 10?

$8 + \square = 10$

How can I  
split 4 to get the partner  
number for 8?

●	●	●	●	●
●	●	●	X	X

X	X			

Make Ten

$8 + \square + \square = 12$

$10 + \square = \underline{12}$  so,  $8 + 4 = \square$

Ana spent \_\_\_\_\_ at the school store.

**Use Ana’s strategy to solve each problem. Write a number sentence that shows your solution and find the sum. Circle how you made ten in your number sentence.**
