

# Triangle Flash Cards: Note Home

Dear Family Member:

Your child is beginning a systematic study of the addition and subtraction facts. In each unit, your child will study a small group of facts using Triangle Flash Cards. In this unit, your child will study the addition facts in Group A ( $0 + 1, 1 + 1, 2 + 1, 3 + 1, 0 + 2, 2 + 2, 3 + 2, 4 + 2$ ) and those in Group B ( $3 + 0, 4 + 0, 4 + 1, 5 + 1, 6 + 1, 5 + 2, 6 + 2, 5 + 3, 7 + 1, 1 + 8$ ). To help with the study of the facts, follow these directions.

- Choose a card and cover the corner with the largest number. It is shaded. Ask your child to add the two uncovered numbers.

- As your child goes through the flash cards, put the cards in three stacks: Facts I Know Quickly, Facts I Can Figure Out, and Facts I Need to Learn.
- Circle the facts in the Facts I Know Quickly pile on the *Addition Facts I Know* chart. Clip the cards from this pile together and place them into an envelope.
- Practice the facts in the last two piles again. Discuss strategies that are useful for learning these facts.
- Keep these tools at home to help your child study these facts for a few minutes each day.

Thank you.
