

4. Frank buys Card C and Card D. How much does he spend?

He pays with 1 dollar. How much money does he have left over?

5. Liz buys Cards B and C. Use the number line to show how much she spent.

6. Miguel's mother asks him to buy 2 cards and gives him \$1.00. If he uses all the money, what two cards does he buy?

Show a different way that Miguel could have bought 2 cards and spent all the money.
