

Two Solutions

Solve the problem two ways. Show how to use a number line, 200 Chart, or coins. Write a number sentence that shows your solution.

Frank wants to buy a bar of soap for 26¢ and a can of soup for 50¢. Mr. Montes tells Frank that it costs 75¢.

Solve the problem one way.

Number sentence _____

Solve the problem a second way.

Number sentence _____

Is Mr. Montes correct? Show or tell how you know.
