Name _____ Date _____

C In Which Season Were You Born

Lee collected data to find out in which season most of his classmates were born. His data is below.

1. In which season were most children born?

_____

Season Born

Season	Number of Children
Winter	9
Spring	7
Summer	8
Fall	5

2. How many more children were born in summer than in fall? Write a number sentence.

_____

3. How would the data change if you included yourself in the table?

_____

D At the Park

1. Twelve children went to the park right after school. Six more came a little later. How many children are at the park?

2. Eight children are playing tag. Three children are on the swings. The rest are on the monkey bars. If fifteen children are at the park, how many are on the monkey bars?

3. Show or tell how you solved either Question 1 or Question 2.

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20
