

Part 4 Measuring with Centimeters and Inches

1. Kim and Liz both measured the same ant path. They each drew and labeled the sketches below.

Do you agree with Liz or Kim? Why?

2. Miguel measured the length of two toy animals.

Animal	Length (in.)	Length (cm)
turtle	2	5
alligator	12	30

A. How much longer is the alligator than the turtle?

B. Draw a line to show the length of the turtle in inches.

C. Draw a line to show the length of the turtle in centimeters.
