

Part 6 Addition Strategies Practice

1. Farmer Ted has turkeys on his farm. He feeds each turkey 2 pounds of feed a day. How much feed will each of Farmer Ted's turkeys eat in one week? Show or tell how you solved the problem.

2. Nan is one of Farmer Ted's turkeys. She weighs 12 pounds. How many more pounds will Nan have to gain to weigh 20 pounds? Show or tell how you solved the problem.
