

Check-In: Questions I-K

- I. Richard started at 35 and moved forward 18.

Richard

$$35 + 10 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1$$

Mara solved the problem this way:

Mara

$$35 + 10 + 10 - 1 - 1$$

Is this a true number sentence:

$$35 + 10 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 + 1 = 35 + 10 + 10 - 1 - 1?$$

How do you know?
