N Buckets of Cubes

N

Jason and Emily are counting buckets of cubes.

1. Jason has 7 bundles of one hundred cubes, 4 stacks of ten cubes, and 9 leftover cubes in his bucket. How many cubes are in his bucket?
2. Emily has 7 bundles of one hundred and 8 cubes left over in her bucket. How many cubes are in Emily's bucket?
3. Whose bucket has more cubes? How do you know?
4. How many more cubes?
