## **D** Price Tags

Use a number line, connecting cubes, or *200 Chart*.

1. You have 25 cents in one pocket and 27 cents in the other. How much money do you have altogether? Write a number sentence to show this problem.

2. You must spend all your money. Circle two items you can buy.

   21¢        35¢        17¢        12¢

   31¢        40¢        36¢        16¢

3. Show or tell how you decided.

---

## **E** Group D Facts
