

Addition Strategy Session

Discuss with your partner how you would solve each of the following problems:

$199 + 3 = \square$

$12 + 12 + 12 = \square$

$52 + 39 = \square$

$41 + 39 = \square$

$10 + 15 = \square$

$51 + 24 = \square$

Choose 2 problems and show or tell how you would solve each.

A. Problem 1:

B. Problem 2:
