

4. Estimate and solve using a mental math strategy.

Estimate:

$$\begin{array}{r} 42 \\ + 19 \\ \hline \end{array}$$

5. Estimate and solve using a paper-and-pencil strategy.

Estimate:

$$\begin{array}{r} 76 \\ + 58 \\ \hline \end{array}$$

6. A. Estimate and solve using any strategy.

Estimate:

$$\begin{array}{r} 239 \\ + 143 \\ \hline \end{array}$$

B. How do you know your answer is reasonable?

C. Solve the problem another way to check your answer.
