

Acme Grocery Store

Dear Family Member:

We have been working on using strategies to solve addition problems with two-digit numbers. Your child may use the number line, 200 Chart, or an invented strategy to solve these problems. For each problem, your child should write the problem and explain how he or she solved it.

Thank you.

Find the total cost for each problem. Show or tell how you solved the problem.

1. A can of soup and a bar of soap cost _____.

2. A cheese wedge and a can of tuna cost _____.

Name _____ Date _____

3. A box of crackers and a box of tissues cost _____.
