

**K** Rocks

Jerome has a collection of rocks that he collected from summer vacations. He made a data table of the colors of the different rocks in his collection.

**Rock Colors**

Rock Color	Number
white	2
black	8
gray	15
red	6
orange	4

1. How many rocks does Jerome have in his collection? Show or tell how you solved the problem.

2. How many more gray rocks does he have than red rocks? Show or tell how you solved the problem.
