

Pretzel Problem

Fern bought a big bag of tiny pretzels. There were 97 pretzels in the bag. Fern ate 38 pretzels. How many pretzels were left?

1. Show or tell how you estimated the answer.
2. Show or tell how you solved the problem. Write a number sentence and include labels.
3. Is your answer reasonable? How do you know?
4. Solve the same problem a different way to check your calculations.
