## EE Jelly Beans

Michael had some jelly beans in a bag. He ate 2 yellow and 2 black. He has two jelly beans left. How many jelly beans were in Michael's bag? Show or tell how you solved the problem.

```

FF Reading Minutes

Tara's class is tracking how many minutes they read each week for one month.

Minutes of Reading

Week	Minutes Read
First	136
Second	95
Third	113
Fourth	157

A. How many minutes were read in the first and second weeks?

B. How many minutes were read in the third and fourth weeks?

C. How many more minutes were read in the first week than in the second week?

D. How many fewer minutes were read in the first week than in the fourth week?

E. Put the minutes read in order from least to most.
