## Many Ways to Say It

**Work with a partner. Each partner will write a number sentence to describe the buildings in the plans. Then combine the number sentences to make a new true number sentence.**

Building Plan	Number Sentences					
<p><b>Example</b></p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <tr> <td style="padding: 5px;">3</td> <td style="padding: 5px;">2</td> </tr> <tr> <td style="padding: 5px;">7</td> <td style="padding: 5px;">8</td> </tr> </table>	3	2	7	8	$\frac{3 + 7 + 2 + 8 = 20}{\text{My number sentence}}$	$\frac{10 + 10 = 20}{\text{My partner's number sentence}}$
3	2					
7	8					
	$\frac{3 + 7 + 2 + 8 = 10 + 10}{\text{Combined number sentence}}$					
<p><b>A.</b></p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <tr> <td style="padding: 5px;">18</td> <td style="padding: 5px;">4</td> </tr> <tr> <td style="padding: 5px;">2</td> <td style="padding: 5px;">16</td> </tr> </table>	18	4	2	16	<hr style="width: 100%;"/> <p>My number sentence</p>	<hr style="width: 100%;"/> <p>My partner's number sentence</p>
18	4					
2	16					
	<hr style="width: 100%;"/> <p>Combined number sentence</p>					
<p><b>B.</b></p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <tr> <td style="padding: 5px;">25</td> <td style="padding: 5px;">25</td> </tr> <tr> <td style="padding: 5px;">5</td> <td style="padding: 5px;">5</td> </tr> </table>	25	25	5	5	<hr style="width: 100%;"/> <p>My number sentence</p>	<hr style="width: 100%;"/> <p>My partner's number sentence</p>
25	25					
5	5					
	<hr style="width: 100%;"/> <p>Combined number sentence</p>
