

5. Fern has a sheet of 9 stickers. She wants to keep some of the stickers for herself and share the rest with Kim and Carla. She wonders how she can share the stickers equally among the three of them.

How can I tell if everyone has a fair share?

Fern

Kim says to cut the sheet into 3 shares this way:

Carla says to cut the sheet into 3 shares this way:

Who is correct? Explain why you think so.
