

**Student Activity Book**

**Parts and Wholes (SAB pp. 643–646)  
Questions 1–14**

1. green
2. brown
3. green
4. blue
- 5.\* green
- 6.\* brown
- 7.\* red

Name \_\_\_\_\_ Date \_\_\_\_\_

**Parts and Wholes**

**Cover the Whole**

Cover the shapes below with pattern blocks. For each question, use only one color of blocks.

1. Cover the blue rhombus with 2 pieces.  
What color did you use? \_\_\_\_\_

2. Cover the red trapezoid with 2 pieces.  
What color did you use? \_\_\_\_\_

3. Cover the red trapezoid with 3 pieces.  
What color did you use? \_\_\_\_\_

Name \_\_\_\_\_ Date \_\_\_\_\_

4. Cover the yellow hexagon with 3 pieces.  
What color did you use? \_\_\_\_\_
5. Cover the yellow hexagon with 6 pieces.  
What color did you use? \_\_\_\_\_
6. Cover the yellow hexagon with 4 pieces.  
What color did you use? \_\_\_\_\_
7. Cover this shape with 4 pieces.  
What color did you use? \_\_\_\_\_

644 SAB • Grade 2 • Unit 13 • Lesson 2 **Partition Shapes**

**Student Activity Book - Page 644**

\*Answers and/or discussion are included in the lesson.

- 8. half
- 9. half
- 10. third
- 11.\* third
- 12. sixth
- 13. fourth
- 14. fourth

Name \_\_\_\_\_ Date \_\_\_\_\_

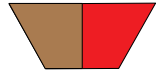

**Name the Part**

For each question, think about how many pieces you used to cover the whole shape. Then use one of the words in the box to fill in the blank.

half	fourth	third	sixth	eighth
------	--------	-------	-------	--------

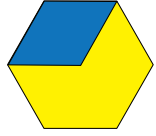

8. The green triangle is one-\_\_\_\_\_ of the blue rhombus.

9. The brown trapezoid is one-\_\_\_\_\_ of the red trapezoid.

10. The green triangle is one-\_\_\_\_\_ of the red trapezoid.

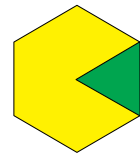

11. The blue rhombus is one-\_\_\_\_\_ of the yellow hexagon.

half    fourth    third    sixth    eighth

✓ **Check-In: Questions 1-3**

1. Kim is thinking about the names of parts of shapes. She calls the red trapezoid one-half of the yellow hexagon. She then wonders how the green triangle can also be called one-half of the blue rhombus.

Something seems wrong. Both parts cannot be "half".

**Kim**

Do you agree with Kim? Why or why not?

2. This is the whole:

A. Shade one-fourth of the whole in the shape above.

B. The blue rhombus is one-\_\_\_\_\_ of the shape.

Partition Shapes SAB • Grade 2 • Unit 13 • Lesson 2 647

**Show Part of the Whole (SAB pp. 647–650)  
Questions 1–5**

1. Kim is not correct. Possible explanation: Both parts can be called one-half. The red trapezoid is half of the yellow hexagon because if the hexagon is split into two equal parts, a red trapezoid covers one of the two parts. If a blue rhombus is split into two equal parts, a green triangle covers one of the two parts, so the triangle is one-half.

2. A. Possible response:

- B. one-half

3. A. Possible response:

- B. one-fourth

- C. one-half or two-fourths

- D.\*one-sixth

Name \_\_\_\_\_ Date \_\_\_\_\_

3. This is the whole:

A. Shade one-half of the whole in the shape above.

B. The red trapezoid is one-\_\_\_\_\_ of the shape.

C. Two red trapezoids are one-\_\_\_\_\_ of the shape.

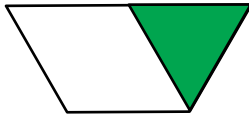

D. The blue rhombus is one-\_\_\_\_\_ of the shape.

**Mrs. Murphy's Party Cake**

Mrs. Murphy made a big cake shaped like this for a party:

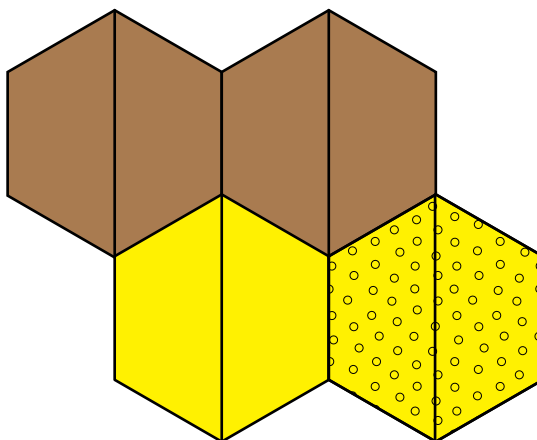

1. Half of the cake was chocolate and half of the cake was yellow. Color the chocolate half brown.
2. Color the yellow half yellow.
3. One fourth of the cake had strawberry filling. Put red dots on this part.
4. The rest of the cake had vanilla filling. How much of the cake had vanilla filling?
5. She cut the cake into eight equal pieces. Trace a pattern block to show the cake cut into eighths.
