

2. There were 416 people watching the walkathon and 289 people participating in the walkathon. About how many people were at the walkathon?

Circle the answer that you think is more reasonable:

under 1000 over 1000

Show or tell how you estimated the sum.

3. Last year, these sandwiches were served at a luncheon after the walkathon:

Number of Sandwiches

| Kind of Sandwich | Number of Sandwiches |
|-----------------------|----------------------|
| cheese | 215 |
| ham | 187 |
| tuna | 295 |
| peanut butter & jelly | 105 |

The teachers are thinking about how many sandwiches they will need to order if about the same number of people will be eating this year.
