✔ Check-In: Questions 2–6

2. Look back at your solutions in Question 1. Are your answers reasonable? How do you know?

If an answer does not seem reasonable, try again.

3. In Question 1A, how did Ming show he added 400?

4. In Question 1B, why did Rosa add 800 + 400 and not 8 + 4?

5. In Question 1C, why did Chris write 1200?

6. In Question 1, what do the digits in the answer 1297 stand for? Use words, numbers, or base-ten shorthand to explain.
