

**W** Yards and Inches

Think about the length of the objects listed below. Circle the measurement that “could be.”

- kitchen table                      4 yards      54 inches
- living room sofa                      2 yards      40 inches
- math book                              12 yards      12 inches
- an umbrella                              1 yard      48 inches

**X** Big Numbers

- Show the number with base-ten pieces using the Fewest Pieces Rule. Then write a number sentence using the expanded form.

Number	Base-Ten Shorthand	Expanded Form
1159		

- Write  $<$ ,  $>$ , or  $=$  in the circle to make each statement true.

A.  $1999 \bigcirc 999$

B.  $1000 + 100 + 2 \bigcirc 1102$

C. 7 hundreds, 13 tens, 9 ones  $\bigcirc$  839

- D. Show or tell how you solved Question C.
