

**K Mental Arithmetic**

Solve these problems without paper and pencil. You may use a number line or mental math. Write down the answers. Explain how you found your answers.

A.  $7 + 5 = \square$

B.  $7 + 15 = \square$

C.  $7 + 75 = \square$

D.  $\square = 10 - 8$

E.  $\square = 100 - 8$

F.  $\square = 100 - 18$

G. Explain how solving Questions D and E can help you solve Question F.
