## Six Key Is Broken

Imagine the six key on your calculator is broken. What keystrokes would you press to do the problems below? Look for tens.
For example, $7+16+4$ could be solved by pressing:
$7 \square+3$
List your keystrokes and write the sum. You do not have to fill all the boxes.

1. $6+15+2=$ $\qquad$

2. $17+6+4=$ $\qquad$

3. $14+6+7=$ $\qquad$

4. $6+18+1=$ $\qquad$
