

C Calculator Counting

Work with a partner to find how long it will take to count to 100. One partner will count. The other will time how long the counting takes. Take turns.

- A. Use a calculator to count by ones to 100. How long did it take?

- B. Predict how long it would take to count by twos to 100. Use a calculator to count by twos to 100. How long did it take?

D Terry and Mike Smart

Terry is helping Mike with his homework. Mike says $15 - 9 = 7$. Terry is trying to show Mike he is wrong. How do you think Mike should correct his mistake?
