

In Twos Through Twelves

Homework

Dear Family Member:

We are working with things that come in groups. For example, wheels on a bicycle come in groups of two. Have your child look for things around your house that come in groups. Then have your child fill in as much of the table as he or she can. You can help by suggesting other items that come in groups.

Thank you.

List things that come in:

Groups of	Examples
Two	
Three	
Four	
Five
