

## I Subtraction Flash Cards: Group 4

1. With a partner, sort the flash cards into three stacks: Facts I Know Quickly, Facts I Can Figure Out, and Facts I Need to Learn.
2. Update your *Subtraction Facts I Know* chart. Circle the facts that you answered quickly. Underline those you could figure out. Do nothing to those you still need to learn.

## J Find Related Facts

1. Solve the subtraction facts below. Then fill in the related addition and subtraction facts on the lines.

A.  $11 - 6 = \square$

B.  $10 - 7 = \square$

C.  $9 - 5 = \square$

$11 - 5 = 6$

---

$6 + 5 = 11$

---

$5 + 6 = 11$

---

---

---

---

---

---

---

2. Sort subtraction flash cards from Group 3 and Group 4 into pairs of related facts. Be ready to discuss what strategies you used to make pairs.

A. What are the addition number sentences that go with  $11 - 8$ ?

\_\_\_\_\_

B. What are the addition number sentences that go with  $9 - 2$ ?
