8. Show all the different ways you can package 27 Chocos on the following packaging sheet. Write number sentences showing the partitions.

_____

_____

_____

 Check-In: Question 9

9. Show all the different ways you can package 45 Chocos on the following packaging sheet. Write number sentences showing the partitions.

_____

_____

_____

_____

10. For Questions 4–9, circle the partition in the table that uses the fewest packages. (For example, the partition of 32 into 1 skinny and 22 bits uses 23 packages.) Look for a pattern that describes the partition that uses the fewest packages. Be ready to talk about the pattern you found.
