

## **H** How Long Does it Take?

1. Diana took her dog for a walk when she got home from school. She started her walk at 3:45 and got back home at 4:35. How long was she gone?
  
2. A. Richard left for his piano lesson at 2:15. He arrived back home at 3:30. If it took him 15 minutes to walk to his lesson and another 15 minutes to walk home, how long was his piano lesson?

B. Show or tell how you solved this problem.
