

Addition and Place Value Quiz

1. Solve this problem using base-ten pieces and a base-ten recording sheet.

$$\begin{array}{r} 264 \\ + 377 \\ \hline \end{array}$$

 1000s	 100s	 10s	 1s	Number Sentences

2. Solve this problem using base-ten pieces and a number line.

$$\begin{array}{r} 268 \\ + 152 \\ \hline \end{array}$$

3. Explain an estimation strategy that shows your answer to Question 2 is reasonable.

4. Solve these problems using any strategy or method you choose. Use the *Addition Strategies Menu* page in the *Student Guide* Reference section. Use a paper-and-pencil method at least once and a mental math strategy at least once. Show your work.

$$\begin{array}{r} \text{A. } 75 \\ + 27 \\ \hline \end{array}$$

$$\begin{array}{r} \text{B. } 907 \\ + 568 \\ \hline \end{array}$$

$$\begin{array}{r} \text{C. } 6653 \\ + 2839 \\ \hline \end{array}$$

5. Explain an estimation strategy that shows your answer to Question 4C is reasonable.
6. Kris solved $363 + 458$ using the compact method. What does the 1 above the 3 mean?

$$\begin{array}{r} 11 \\ 363 \\ + 458 \\ \hline 821 \end{array}$$

7. Ana solved this problem using the all-partials method. Explain Ana’s step by the arrow.

$$\begin{array}{r}
 363 \\
 + 468 \\
 \hline
 700 \\
 120 \leftarrow \\
 + 11 \\
 \hline
 831
 \end{array}$$

8. Solve this problem using a mental-math strategy and a paper-and-pencil method. Circle the strategy you think is the best choice for this problem. Explain.

$$\begin{array}{r}
 425 \\
 + 206 \\
 \hline
 \end{array}$$

**Addition and Place Value Quiz
